

EXOTIC LEATHER

INDONESIAN LIZARD: INTRICATE DETAILING

Perfect for the man who has everything, Trafalgar's Indonesian Lizard Collection has a sleek modern feel that will bring a sophisticated touch to a night on the town or the executive's boardroom. Finished with a high polish and hand-staining; Trafalgar's genuine lizard pieces are a rare stylistic expression that are recognized for wearing beautifully. Regularly proclaimed to have a "great in hand feel," lizard hide is both organically small and delicate; requiring meticulous crafting to make a single piece.

EXOTIC LEATHER

TRAFALGAR'S COLLECTION OF EXOTIC LEATHER ACCESSORIES AND GIFTS ADD A LUXURY YOU CAN FEEL.

GENUINE TRAFALGAR EXOTIC LEATHERS, GENUINE LUXURY

Trafalgar is the premier supplier of exotic leather goods worldwide; known from the Swiss Alps to Boston's Back Bay.

Born from the company's vision of timeless American style and a refined haberdashery look, the Trafalgar Exotic Leather Collection has been featured in publications such as GQ and The New York Times.

ABOUT TRAFALGAR EXOTIC LEATHERS

All of Trafalgar's exotic leather is genuine and manufactured with the best quality skins legally available. Trafalgar prides itself on offering both classic styles for those starting a collection as well as unique "must-have" accessories for connoisseurs. All pieces are crafted and polished by hand in the USA.

AMERICAN ALLIGATOR: THE TRUE AMERICAN CLASSIC

Trafalgar's genuine American Alligator speaks to a sense of luxury, classic style, and impeccable taste which will instantly upgrade any man's look. Crafted from wild Louisiana Alligator; a timeless expression of fine living.

1) QUALITY:

Trafalgar crafts this collection exclusively from the belly section of wild Louisiana Alligators. Wild Alligators grow longer and leaner, providing for more consistent and undamaged hides. Using hides of wild alligators from the soft beds of the Louisiana rivers ensures superior quality, cleanliness, and suppleness which is distinctly noticeable.

2) CHARACTER:

At Trafalgar, Alligator hides are vegetable tanned not chemical tanned. This special step makes the product more durable and as it ages allowing for the natural oils preserved in the leather to continually polish itself. With vegetable tanning, the product is entirely biodegradable and the process is eco-friendly to the community.

3) DISTINCTION:

Organic steaming is a standard process for Trafalgar when crafting Alligator accessories. The characteristics of these hides are best enhanced through heat glazing which creates a high-shine luster and enhances the natural contours of the leather.

CROCODILE: LUXURY SAFARI

For a casual, understated look of luxury, Trafalgar's Genuine Crocodile Collection finds the balance between rugged styling and exotic extravagance using a rare matte finishing technique. Between eco-friendly tanning and the inspired feeling of a first class safari, you will forget you are only in the urban jungle.
